Greetings,

We are now taking new reservations for the 2021 South Dakota State Fair. All sites inside of the fairgrounds and all sites with electrical hookups are reserved, but there are self-contained camping sites in Gate 13 and Gate H available.

Gate H is located across the street from Gate 8, which is a popular gate used by 4-H. Gate H has no shower or restroom on-site. Campers in Gate H are welcome to use the Pasque Park campground shower and restroom facilities. Gate 13 is located across the street from the northwest side of fairgrounds where the grandstand is. Gate 13 does have an on-site shower and restroom facility.

Although these sites are located off the main fairgrounds, there are many benefits to camping in Gate H or 13. The sites in these campgrounds are very spacious and much quieter than the campsites on the main fairgrounds. All available sites are self-contained, which means there are no hookups available. Campers are welcome to bring a generator but must follow the 11 PM – 7 AM generator quiet hours. Exceptions will be given to those with medical necessities, if you are using a quiet generator, or in the case of extreme heat.

Reservations for self-contained sites in Gate H or 13 can be made by calling and giving payment information over the phone or downloading the application off our website and mailing it in along with a check. All reservations are on a first come, first serve basis. The camping package includes four weekly gate admission wristbands.

If a reservation is made prior to the 2021 South Dakota State Fair, your name will be added to the reservation database and you will receive a camping invoice in January 2022. At that time, if you want to request a specific site in Gate 13 or enter your name into the lottery you may do so. If a site becomes available on grounds or with electrical hookups, a name is drawn at random from the lottery and the site is offered to that person.

Should you have any further questions, please feel free to contact me either by phone or email.

Thank you,
