South Dakota State Fair Foundation Announces, ‘Discover the DEX’ Fundraising Campaign for a New Livestock Complex

HURON, S.D. - The South Dakota State Fair Foundation is excited to announce the ‘Discover the DEX’ fundraising campaign to help fund the DEX: Dakota Events CompleX. The DEX is the new multipurpose livestock and equestrian facility at the South Dakota State Fairgrounds in Huron.

“In South Dakota, we see challenges as an opportunity to grow, to build for the future,” said Governor Kristi Noem. “The new DEX will be a state-of-the-art facility which will attract regional and national events to Huron.”

The estimated cost of the DEX is \$19 million. To pay for the project, Gov. Noem is asking the legislature for \$12 million in one-time funds. The one-time funds, plus insurance payments from the fire leaves \$4 million to be raised by the State Fair Foundation.

“It is a big ask,” said Jim White, fundraising committee chair. “But we have the opportunity to build a facility that will impact the fair for generations. It is time for us to rally together and ‘Discover the DEX!’”

The ‘Discover the DEX’ campaign includes several donor opportunities for all donation levels including naming rights, donor wall sponsorships, and a brand and name recognition display. For more information on how to donate visit: www.sdstatefairfoundation.com

The 200,000 square-foot DEX will have two, full-sized equestrian arenas and seat up to 7,000 fans, making it a one-of-a-kind venue for hosting local, regional, and national events. The footprint covers the area abandoned by the 96,000 square-foot Beef Complex and the 37,000 square-foot Sheep Barn, that has long outlived its useful life.

During the State Fair, the DEX will house the open class beef and open class 4-H beef exhibitors, while the open class sheep and goat exhibitors will be moved to the existing 4-H Livestock Complex. This allows for species specific barns across the fairgrounds, a trend favored by exhibitors, and addresses livestock transportation issues on the fairgrounds. Project

planners are working diligently with the sheep and goat exhibitors to improve the existing 4-H Livestock Complex to ensure their new home exceeds their expectations.

Demolition of the Open Class Beef Complex began in December, with project design efforts following in Spring 2021. A groundbreaking ceremony will be held during the 2021 fair and the DEX will be up and running in time for the 2022 State Fair.
